

Ontario Motor Vehicle Records Now Available!

UNITE | Insurance
Exchange
Platform

Realtime access direct from the source!

- MVR provided directly from the Province
- Easy access to existing Unite Community Members
- Verified data for pre-population and underwriting
- Connectivity - made easy!

Working together for greater connectivity - now!

Carriers, brokerage technology vendors, digital brokers, 3rd party data services - we unite them all through a simple, uncomplicated insurance exchange platform. Everyone is welcome, and it is strictly a bring-what-you-have party. We'll take care of the rest!

Fast.

Joining, adding services, connecting with more parties in the ecosystem - all in super speed!

Reliable.

Architected against single points of failure, with a highly available & scalable infrastructure

Communal.

By the industry, for the industry - we are changing the connectivity model, one Community Member at a time.

No Barriers.

None. Anyone can join, and it is a bring what you have party. We connect all formats and message types.

Bringing learnings from the past to make connectivity a reality. Today.

We brought together the team that lead the wave of the last pivotal insurance platforms, broker portals, and tasked them with meeting today's needs. Answering the gap in connectivity by establishing the Unite | Insurance Exchange Platform, the entire insurance ecosystem is able to meet the ask of brokers to enable the preferred workflows. No interfaces people don't want to use. No massive and costly vendor projects that are outdated the day they go live. And scalability vertically and horizontally.

Unite Insurance!!

We LOVE to talk connectivity! Contact us now to have your questions answered. Use our handy scheduling tool, email us, or give us a call. We know you will be impressed with how easy connecting has just gotten.
